*Effective July 1, 2011, [Senate Bill 72](#) (Chapter 8, Statutes of 2011) reduces SSP standards for individuals to the minimum allowable level per federal maintenance of effort requirements [20 CFR §§ 416.2096-2098](#). The rates for those living in Title XIX medical facilities and Non-Medical Out-of-Home Care living arrangements are exempt. The rates for couples and disabled minors living independently with parents will be unaffected by this change because their SSP rates are already at the Maintenance of Efforts (MOE) level. This reduction has no effect on the 1) presumed maximum value of in-kind support and maintenance; 2) the allowance for ineligible children in deeming situations; 3) the sponsor's allocation in alien deeming situations; or 4) the allowance for parent(s) in parent-to-child deeming situations.
